

40MWh Indoor BESS

WEST TEXAS

Provided 40MWh of battery storage capacity to the ERCOT market.

Located in the heart of the Permian Basin, this project provided 40MWh of battery storage capacity to the ERCOT market via the use of NARADA Battery system.

Unique Attributes: Alternatively to the traditional containerized BESS construction, the MEPPi 40MWh site in the Permian basin provided an indoor utility scale battery storage system utilizing NARADA's quick bussing technology and forced air system.

PPS also provided all interior electrical trim-out as well as Fire Alarm rough-in.
