

Emergency Power Upgrades (Medical)

EGLIN AFB, FL

Provided installation services of 3 new 800kW diesel generators, paralleling switchgear and 12 downstream ATS's.

In support of the mission of the 96th Medical Wing at Eglin AFB, PPS provided installation services of 3 new 800kW Diesel generators, paralleling switchgear and 12 downstream ATS's.

UNIQUE ATTRIBUTES: PPS utilized containerized temp gens, temp paralleling switchgear, DLO cabling, and auxiliary fuel tanks to support the existing facility while the demolition of the existing emergency power system was underway and the new system was installed and commissioned.
