

Fire Alarm and Mass Notification System

PANAMA CITY, FL

PPS is responsible for the installation of the full raceway, network and communications wire for multiple fire alarm systems.

These systems are class B fully addressable fire alarm systems accompanied by mass notification via audio and scrolling text signs. PPS is responsible for installation of the full raceway, network, and communications wire, as well as fire alarm devices.

Devices include: smoke detectors, horns, strobes, local control panels, fire alarm control panels, amplifiers, power supplies, pull stations, and mass notification text signs. PPS will assist in setting addresses for devices as well as the system acceptance testing.
