

Whiting Field Substation

WHITING FIELD, FL

PPS performed as the turn-key site-civil, concrete and electrical contractor for the new pad-mounted substation at Whiting Field, FL.

This project included the clearing and grubbing of an existing site, establishing grade, new substation ground-grid and top-rock. PPS installed new utility transformers, primary metering and primary switches.

PPS installed new UG to POD at new primary riser and coordinated outages with NAVFAC and PBSS.
